Why join the *European student chapter?*

The formation of an ASIS&T European Student Chapter would enable us to develop such activities as:

Network with European students of information science and related disciplines. We have our own mailing list!

Strengthen connections and networking opportunities with ASIS&T students throughout the world.

Build an infrastructure for student exchange/internships within Europe, at information research institutions and libraries, archives, museums, etc.

Publish student essays on the ASIS&T EC Web site or an ASIS&T EC repository.

A student paper contest that allows the winner to attend the annual ASIS&T meeting (open to members only).

... and many more...

we are the ones who create our possibilities!
