# ASIS&T New Jersey Chapter

The New Jersey Chapter is a two-time winner of the ASIS&T Chapter-of-the-Year Award. The chapter has excellent administration with a full complement of officers. During 2004-2005, the chapter has held presentation/dinner meetings featuring speakers on Google Scholar and blogs, and presented the 18th Distinguished Lectureship award and program featuring Eugene Garfield. The recipient of the 19th Distinguished Lectureship award is Susan Duma is featured in a day-long event at Rutgers and IEEE on September 22, 2005.

## ASIS&T SIG Health Informatics

SIG/HLTH brings together members of various disciplines to evaluate the needs and problems of developing and managing medical information systems that can handle the complex uses to which they are put. It is concerned with the application of information science principles, information technology, and communication to biomedical science and health care and their related social and ethical issues. SIG/HLTH provides a forum for sharing and managing knowledge as a strategic resource for improving the quality, effectiveness, and use of biomedical information, data transfer, and communication through rigorous application of medical informatics. Areas of interest include bibliographic, text, numeric, and image databases; medical information collection, management, dissemination, and communication; biomedical information systems for academic, group and solo practice, hospital, industrial, health care delivery, and research institutions; biomedical simulation, telecommunications, virtual communities and networks, decision support and knowledge systems, and information infrastructures; and health information systems for the public.

## ASIS&T SIG Health Informatics

The Association for Information Science and Technology (ASIS&T) is a national organization devoted to the creation, organization, dissemination and application of knowledge concerning information and its transfer. Rutgers University ASIS&T (RUASIS&T) is a student chapter of this organization. In addition to the RUASIS&T chapter, New Jersey also has a state chapter (NJASIS&T) which works closely with RU ASIS&T.
