

## American Society for Information Science & Technology, Southern Ohio Chapter

### Message From the Chair

Glen Horton

We are now well into the summer season and for many that means vacation time and a slower pace. SOASIST had a busy spring season and believe it or not, some new events are just around the corner!

In March, SOASIST's own Donald Case came up from UK to present "Information Seeking and Information Avoidance: The Case of Patients and Health Information." Attendees learned fascinating facts about the ways that people seek out information about their health. Thanks to Donald for a great program!

In April, SOASIST teamed up

with the Cincinnati Chapter of SLA and the Greater Cincinnati Library Consortium to sponsor "Doing Our Jobs Without Breaking the Law: Current Copyright Issues." The day-long event featured four speakers discussing different aspects of copyright and copyright laws.

Both programs offered excellent opportunities to meet and network with people in the information world. This is really one of our chapter's biggest strengths. It only works, however, when people like you (yes, *YOU*) attend the events and participate. Organizations like ours get

better and better as more people become involved.

Over the next few months, look for even more exciting and informative programs from SOASIST. In particular, be sure to catch Thomas Blanton speak on the USA Patriot and Freedom of Information Acts on August 13th.

Even if you've never attended a SOASIST event or just haven't done so in a while, you won't want to miss this program!

Check [www.soasist.org](http://www.soasist.org) often for updates on the August, September, and October events.
